Subject: Re: DEP meeting

My Meeting request yesterday was specific to Dimock PA which one could argue whether it is a Shale Gas HF issue or not. Vertical well drilling with poor casing likely caused methane gas migration. In any event, we will certainly wait and see - just keep Karen Johnson in the loop since she is charged with scheduling a meeting.

Subject: DEP meeting

Hi Jon -

I know that the request was made to you to meet with DEP on Marcellus issues. I had a similar request and I think I mentioned on Tuesday that Shawn wanted to get out a letter to acknowledge the request to meet and touch on 2 other things (air aggregation guidance and the ELG announcement).

I have drafted a short letter that I'll get out in electronic form this morning, ask for quick thoughts/comments, then put it into concurrence. Shawn would like the letter to go out before we meet with DEP.

Any questions, please let me know.

Thanks!

Jennie
